

Personal protective equipment and method of use

1. In all buildings of the Medical University of Lublin, in the common areas (corridors, staircases, toilets, break rooms) there is an obligation to cover the nose and mouth. This obligation does not apply only to your own workplace.
2. Everyone is obliged to limit to the necessary minimum direct contact with other users of the facility and to use only their own stationery and office supplies, accessories necessary for classes (e.g. stethoscope).
3. Each employee should be equipped with surgical or reusable masks that can be washed and disinfected.
4. Organizational units in which customers are served in a constant, direct contact, are equipped with plexiglass plates.
5. People who, due to the nature of their work, have frequent contact with people from the outside, are equipped with head visors.
6. Employees are given disposable gloves as required.
